Protect Jobs from the Obama Globalists

**Over 1.5 million migrant workers
into the Northwest since 2004,
swamping the job market and
pushing down your wages—
enough is enough!**

Not only does globalization cost us trillions of dollars, demolish our rights and destroy our manufacturing, forestry and fishing industries - it also threatens White workers. As the illegal immigrant amnesty is implemented, the floodgates are opened to tens of millions of low-wage workers from South America and Africa, many coming to the America to take YOUR job.

On top of this, millions of Mexicans who can now travel freely to Soft Touch America. When they get here they are entitled to use our hospital emergency rooms at no cost and scores of other public services which are all funded by the taxpayer.

This flood of low wage Third World workers is

causing American wages to nose-dive. American workers are being forced to accept lower paid work or unemployment. There are already tens of millions of Mexican nationals working here - and things are getting worse all the time.

The Aryan Nations calls for the immediate withdrawal from the globalization scheme. We are committed to putting the rights and well-being of Northwest workers first. The money saved by leaving the Union would be spent on those who built it - the taxpayers - with pensions, and investment in education, hi-tech industry and health care being our top priorities.
